# BACKGROUND

**Flaxem System Enterprises** Limited is an information technology consultancy company with the head office in Nairobi, Kenya and a branch in Kampala, Uganda. Flaxem System Enterprises was established in 2008 with a focus on providing integrated software and financial management solutions to our clients. We are a fast-growing establishment with every pragmatic approach to business.

We are known for our dedication to on-time solutions, implementations and support to our esteem clients. We pride ourselves on the personal services that we provide as well as being cost-effective.

Our clientele is government and non-governmental organizations in Africa and the Middle East. By deploying our professional and well-versed expertise in all the respective fields that we are involved in, we can maintain and guarantee reliable and cost-effective products and services.

We run on Sound Business Principles to offer Quality Consultancy and Training Services in the areas of:

- ICT Strategy and Management
- Business Planning
- Management Consultancy and Training
- Financial Analysis
- Investment Advisory services

We deliver business-specific software that helps enterprise organizations of all sizes adapt to rapid change. With experience build in, our solutions are helping organizations meet the goals in the global market place.

Our solid track record and large customer base indicate our ability to deliver solutions on time and budget, with the ultimate focus on the value of our projects to our customers.

Specialized in Infor software solutions, we have developed and have not only to provide solutions to a wide range of industries but also understanding the environment that enabled us to develop solutions applicable to markets within which our clients operate.

To offer world class services by effectively serving customers with dedication and Integrity.

## MISSION

## VISSION

To become the best ICT consultancy company in the region

## Core Values

### Integrity and Business Ethics

We believe that doing business with integrity and ethics attracts and builds a solid client base with resulting long-term business relationships and mutual benefits.

### Truth and Trustworthiness

As a Company, we endeavour to be reliable on character, ability, strength, and truth in business.

### Teamwork

As a Company, we endeavour to team up and work with other like-minded companies and individuals when necessary to meet our obligations for our clients.

The top half of the page features a photograph of a team of six people running on a beach. They are silhouetted against a bright, hazy sky and the ocean. The image is framed by a large, diagonal graphic element that splits the page. On the left side of this split, there is a blue area with a pattern of overlapping triangles. On the right side, there is a solid grey area. The title 'Our Team' is centered at the top in a white serif font.

# Our Team

Our team of smart and self-driven individuals works towards customer satisfaction and building good customer relationships. Our personnel truly become a valuable extension of our clients' teams, and as a result, clients recommend Flaxem Systems Enterprises Limited to others. It feels different to work with us.

# TARGET MARKET

## Our target markets are:

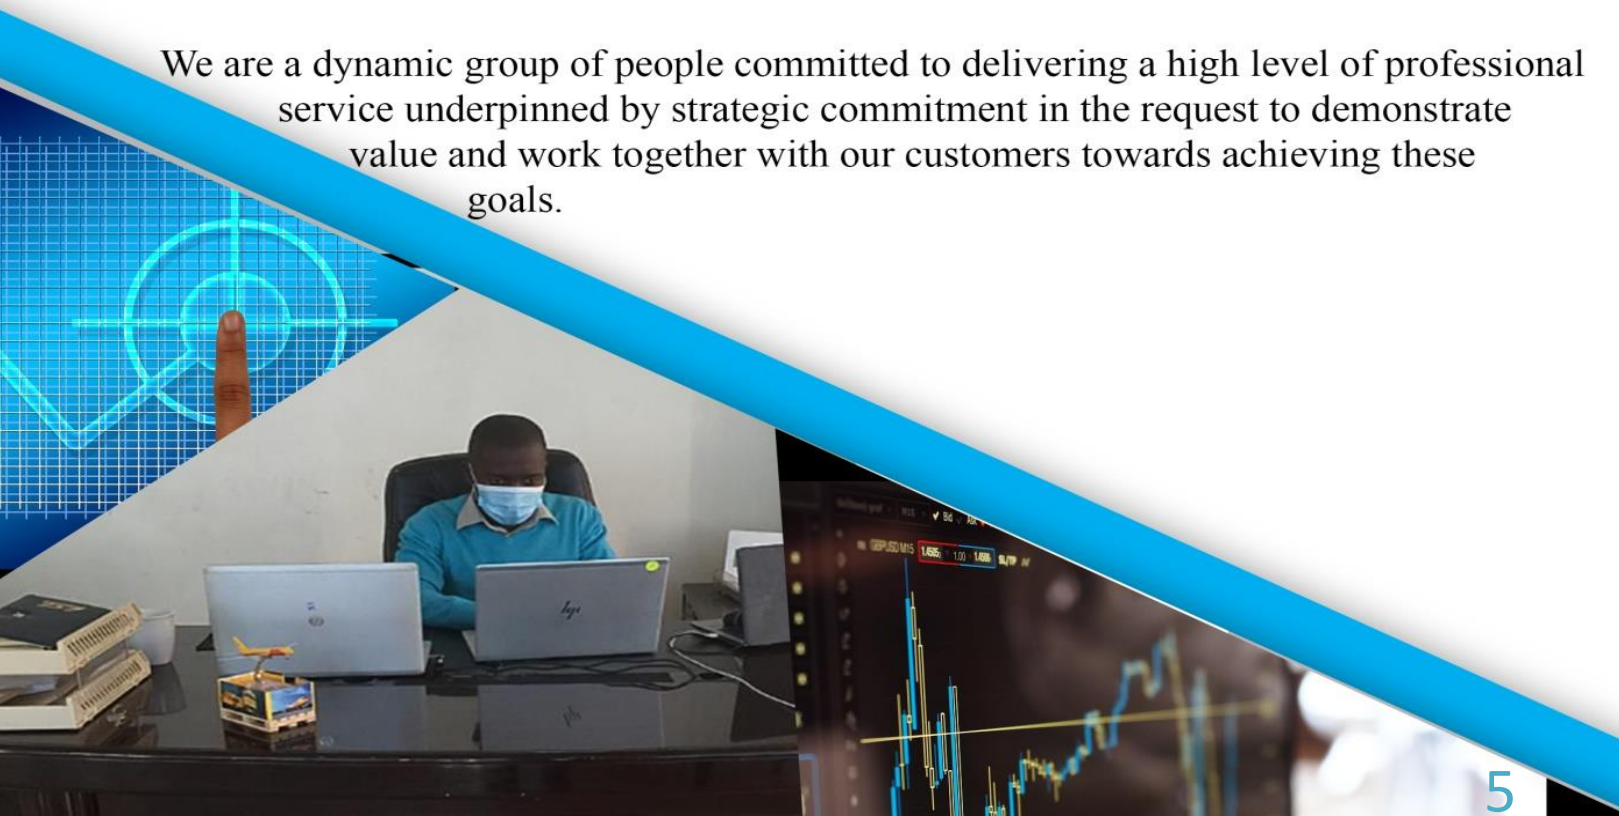

- Energy and Environment
- Education
- Products and Process Engineering
- Government
- NGOs
- Health
- Travel
- International Research Bodies
- Insurance and Re-insurance companies

Our offerings are aligned with our strategy to become a reliable supplier of quality software that contribute to our client's profitability and business performance. We provide ICT consultancy with an emphasis on the delivery of the business intelligence, analysis of the transaction, forward projection, calculation of profitability, budget and KPI's that are executed in a real-time environment. We are solution-driven in a market characterized by rapid change.

Development and integration of customization software solution to clients ensures that they derive maximum benefit from their investment in technology.

Customer centricity is central to our service delivery as we continue to form long term partnership that contributes to the growth and performance of our clients.

We are a dynamic group of people committed to delivering a high level of professional service underpinned by strategic commitment in the request to demonstrate value and work together with our customers towards achieving these goals.

# OUR PRODUCTS

## • Infor SunSystems

Infor® SunSystems delivers integrated financial management, sales management, purchasing, and inventory solutions to 9,000+ customers in 190+ countries. For 30+ years, Infor SunSystems has been meeting the needs of the hospitality, non-profit, banking and insurance, upstream oil and gas, and other industries across the globe.

## • Infor Intelligent Open Network (ION)

ION provides the flexibility you need to make an often-complex web of enterprise systems work together and the long-term sustainability to optimize return on technology investments. With ION, one application can be upgraded, replaced, or even fail without taking the entire network down.

End users can monitor critical business issues – from sales opportunities to production problems – via mobile devices, while administrators can easily monitor and administer Infor ION applications. Whatever your role, you'll have the information you need to make better decisions faster.

## • Infor OS

Infor® OS is a cloud operating platform that seamlessly connects services to provide a robust integration framework and serve as the foundation of an entire business ecosystem. Infor OS brings business processes and artificial intelligence (AI) together to enable rapid application development and a common data strategy—all built using service-design principles in a unified experience that allows customers to be flexible and agile in the cloud. Infor's core strategy is rooted in Infor OS—a platform designed for creating competitive advantages through innovation.

## OUR PRODUCTS cont

### • Infor ERP Syteline (Cloud Industrial)

Infor CloudSuite™ Industrial turns the complexities manufacturers and distributors face into opportunities to outshine the competition. Increased productivity and rapid delivery become key differentiators. Product innovations, including personalized products, create memorable customer experiences, leading to relationships that transcend price alone.

### • Infor Query & Analysis Vision

Infor Query & Analysis redefines the way you interact with enterprise information and provides revolutionary new features to increase the speed of your overall business. Because you can manage and secure your mobile applications from a single portal, you'll be able to grow your business without increasing its vulnerability.

### • Infor Ming.le™ Enterprise

Build a centralized space for collaboration, business process improvement, and contextual analytics with Infor Ming.le™. Fully embedded within ERP, financials, and other organizational systems, this platform enables single-sign-on for all Infor CloudSuite™ solutions. Plus, it allows users to create personalized homepages that are tailored to their jobs.
